## **INTRODUCTORY SECTION**

## The City of Columbus

P.O. Box 87 • Columbus, Texas 78934 • 979-732-2366 • 979-732-8213

March 31, 2020

To the Honorable Mayor, Members of City Council, and  
Citizens of the City of Columbus, Texas:

State law requires that every general-purpose local government publish at the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended September 30, 2019.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Pattillo, Brown, & Hill L.L.P., has issued an unmodified (“clean”) opinion on the City of Columbus’ financial statements for the year ended September 30, 2019. The independent auditors’ report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditors’ report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

### ***Profile of the Government***

The City of Columbus was established in 1835, and first incorporated on June 5, 1837. Current incorporation occurred on January 10, 1927. It is located in Colorado County at the intersection of Interstate Highway 10 and State Highway 71, in south central Texas, approximately 70 miles west of Houston, 120 miles east of San Antonio, and 80 miles southeast of Austin. The City currently has a land area of 2 square miles and a population of 3,655. The City of Columbus is a Type A, General Law City and utilizes the Council-Manager form of government organized under Chapter 25 of the Texas Local Government Code. Policy-making and legislative authority are vested in a governing council consisting of a Mayor and five Council members elected by position. The City Council is responsible, among other things, for passing ordinances, adopting the budget, and appointing the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the City and for appointing the heads of the various departments. Council members serve two-year terms, with the Mayor and two Council members elected in odd years and three Council members elected in even numbered years. The Mayor appoints the Municipal Court Judge, and members of various City committees with the approval of City Council.

The City of Columbus provides a full range of services, including police and fire protection, the construction and maintenance of streets and other infrastructure, a public library and governmental activities. The City of Columbus operates water, sewer, garbage service, and gas utilities. In addition, the City is financially accountable for the activities of the Columbus Community and Industrial Development Corporation, a legally separate entity, which is reported separately within the City of Columbus' financial statements.

The City Council is required to adopt a final budget by no later than the close of the fiscal year. This annual budget serves as the foundation for the City of Columbus' financial planning and control. The budget is prepared by fund, function, department, and object. The City Manager may transfer resources within a fund during a fiscal year. To amend the total expenditures, a budget amendment must be approved by City Council.

### ***Local Economy***

As measured by the City's sales tax, Columbus has experienced economic growth over the past ten years. With sales tax revenues for fiscal year end 2010 of \$674,917 and for the current year of \$1,127,925, the growth for the period was 67%. Three of the last four years have seen healthy annual increases in the City's sales tax revenue, with an average annual increase of 5.68%. Last year, sales tax saw a 13.2% increase in revenue. No single large new business has arrived to drive up the City's sales tax revenue. Instead steady, sound growth is being experienced throughout the business sectors. Because of the volatility in the national economy, the City carefully monitors sales tax revenues on a monthly basis, with a goal of identifying new trends.

2013 saw the completion of a new \$14.5 million oil and gas fabricating facility in the City's industrial park. Because of increased demand on the City's natural gas supply made by this facility, the City obtained a Texas Capital Fund grant to install a new transmission line to the industrial park. This line not only provides needed volumes to the current facility but will also be available for future expansion at the park. Engineering on this new gas line was completed in 2015. Construction was completed in 2016, and the grant closed in 2018. Prior committed land in the industrial park has recently become available for prospective expansion, and interest in other available tracts has been heavy.

With the upturn in the energy sector, the City maintains an advantage with growth in related sectors. With the continued growth of the Sun Belt region and as the City's fundamentals improve; an increase in new housing construction will meet the demand for expansion. Columbus has the potential to be a leading small town in this area for years to come.

Although the City saw major flooding during August of 2017 from Hurricane Harvey, clean-up has been completed, and City management is working closely with FEMA and the Army Corp of Engineers to rebuild damaged infrastructure.

### ***Long-term Financial Planning***

The City of Columbus maintains sufficient cash reserves and unreserved fund balances/unrestricted net position in its general and utility fund to avoid borrowing for general operating purposes and to handle emergency situations, while providing quality service levels to the public.

During fiscal year 2005, the City was successful in obtaining certificates of obligation for \$4.75 million to fund a major Water and Sewer Improvement Project. These funds allowed the City to drill a new

water well, install new water and sewer lines throughout the City, and renovate the water and sewer plants. This major project was completed in 2009.

During fiscal year 2013, the City refunded the 2005 certificates of obligation by obtaining general obligation refunding bonds. This advance refunding was undertaken to reduce debt service payments over the next 12 years by \$418,623 and resulted in an economic gain of \$365,887.

During fiscal year 2008, the City obtained certificates of obligation for \$4 million. \$1.2 million of these funds were used for a major renovation of City Hall facilities and the Fire Station. The remaining \$2.8 million of the proceeds from the 2008 certificates of obligation were utilized for improvements to the Water system and to enhance the Gas delivery system.

During fiscal year 2010, the City refunded the 2008 certificates of obligation by obtaining general obligation refunding bonds. This advance refunding was undertaken to reduce total debt service payments over the next 18 years by \$375,075 and resulted in an economic gain of \$273,381.

During fiscal year 2014, the City entered into a lease agreement in the amount of \$900,000 to finance the purchase of an Automated Meter Reading system, along with updated water and gas meters. With the majority of meter installation completed in 2015, the system is providing a means for the City to more effectively monitor and manage the distribution and use of water and gas to its customers, and is also increasing billing efficiency.

In October 2016, the City obtained \$3 million of certificates of obligation in order to install a new water filtration system to improve water quality. This \$2.5 million project is expected to be completed by summer 2019. The remaining funds from the certificates are earmarked for sewer and gas system improvements.

### ***Relevant Financial Policies***

The City awards its depository contract through official bidding procedures for a two-year period with an option to extend for a year. After open bidding in August of 2018, Industry State Bank was again awarded the City's depository contract expiring on September 30<sup>th</sup>, 2020.

The City's bank depository agreement requires that all demand deposits and time deposits are secured by pledged collateral with a market value equal to 102 percent of the deposits, less \$250,000, which is insured by the Federal Deposit Insurance Corporation. Evidence of the pledged collateral is maintained by a third party financial institution.

During 2018, the City Council renewed the existing Investment Policy as required by state law and no significant changes were made to the policy.

### ***Major Initiatives***

Technology improvement continues to be a major area of change in the City. The City has implemented technology enhancements with new utility billing, building projects, court, and financial software systems since 2007 with upgrades made in 2018. In 2009, a SCADA (Supervisory Control and Data Acquisition) system was installed which allows the City to remotely monitor the water and sewer plants from two selected locations. In fiscal year 2020, the first of a two-phase upgrade to the next generation SCADA system will be installed, allowing for mobile monitoring of the system. In 2012, the City installed an automated fuel control system at its vehicle fueling station. In 2014, the City's Police

Department updated its records management system to allow integration between the reporting, mobile, and other local agency software. In 2020, the Police Department will be implementing a ticket-writer system for easier reporting to the Municipal Court.

In 2014, the Water and Gas Improvement Project, as mentioned earlier, saw the completion of a project to replace water distribution lines in part of the City, and an elevated water tank, which could no longer be used, was demolished. The City also received a grant to fund the replacement of aerators at its water plants and another to build a dedicated gas line to the industrial park to accommodate increased gas demands there. Major construction of the Aerator Grant Project, and the engineering for the Gas Line Grant Project was completed in 2015. Open bidding for the construction of the gas line project was carried out in late 2015, with construction completed in 2016.

In 2018, the City was awarded a CDBG Grant for water line replacement in the area near the Junior High. Engineering has begun with the project to go out for bids in July 2019, with construction expected to be completed by July 2020. Additionally, the City has earmarked funds from the 2016 Certificates of Obligation for water line replacement starting near the downtown area and moving south. These two projects along with the previously mentioned Water Filtration Project will greatly enhance the quality of the City's water system.

### ***Awards and Acknowledgements***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Columbus for its comprehensive annual financial report for the fiscal year ended September 30, 2018. This was the thirteenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the finance department staff. We wish to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and City Council members for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Columbus' finances.

Respectively submitted,

Donald Warschak, PE  
City Manager

Bana Schneider  
Finance Director/City Secretary

## INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members  
of the City Council and Citizens  
City of Columbus, Texas

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Columbus, Texas, as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Columbus, Texas, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NEW MEXICO | Albuquerque

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Columbus, Texas' basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2020, on our consideration of the City of Columbus, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Columbus, Texas' internal control over financial reporting and compliance.

*Pattillo, Brown & Hill, L.L.P.*

Waco, Texas  
March 31, 2020

**MANAGEMENT'S  
DISCUSSION AND ANALYSIS**

## **CITY OF COLUMBUS, TEXAS**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

SEPTEMBER 30, 2019

As management of the City of Columbus, Texas (the "City"), we offer readers of the City financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the City's financial statements, which follow this section.

#### **FINANCIAL HIGHLIGHTS**

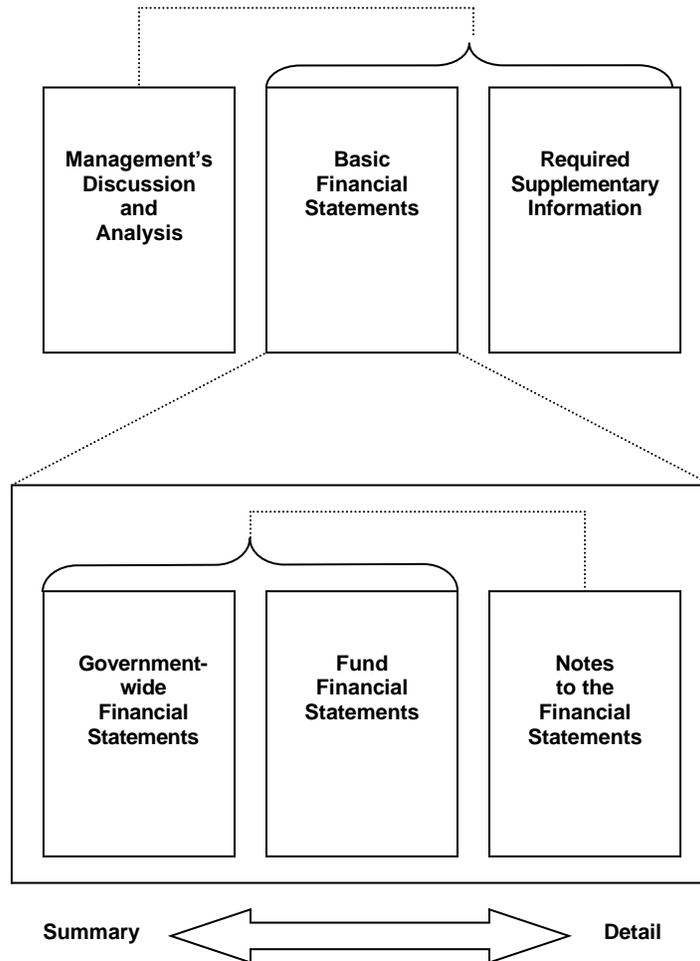

- The assets and deferred outflows of resources of the City for its governmental and business-type activities exceeded the deferred inflows of resources and liabilities at the close of the fiscal year by \$9,963,075. Of this amount, \$8,446,825 represents net investment in capital assets, \$451,483 was restricted for Economic Development and \$669 was restricted for debt service. \$1,064,098 is unrestricted and to be used in accordance with finance related legal requirements reflected in the City's fund structure.
- The City's total net position increased by \$454,686. A major contributing factor in this increase is attributable to an increase in property taxes and utility revenue.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$2,199,273, an increase of \$292,226 in comparison with the prior year. Approximately 26% of this total, or \$573,153 is available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$573,153 or 19% percent of total General Fund expenditures for the fiscal year.
- The City's total governmental long-term liabilities decreased by \$577,326 (38%) during the current fiscal year mostly due to scheduled debt service payments and a decrease in the net pension liability.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the City of Columbus' basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements (see Figure 1). The basic financial statements present two different views of the City through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the City of Columbus.

**REQUIRED COMPONENTS OF ANNUAL FINANCIAL REPORT**  
**Figure 1**

**Figure A-1, Required Components of the City's Annual Financial Report**

**Basic Financial Statements**

The first two statements in the basic financial statements are the *government-wide financial statements*. They provide both short and long-term information about the City's financial status.

The next statements are *fund financial statements*. These statements focus on the activities of the individual parts of city government. These statements provide more detail than the government-wide statements. There are two parts to the fund financial statements: 1) the governmental funds statements; and 2) the proprietary fund statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the City's individual funds. Budgetary information can be found in the required supplementary section of the report.

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the City's financial status as a whole.

The two government-wide statements report the City's net position and how they have changed. Net position is the difference between the City's total assets, deferred outflows/inflows of resources and total liabilities. Measuring net position is one way to gauge the City's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; and 3) discretely presented component unit. The governmental activities encompass most of the City's basic services such as public safety, public health, parks and recreation, and general administration. Property taxes, sales taxes and state and federal grant funds finance most of these activities. The business-type activities are those in which the City charges customers to provide services. These include the water, sewer, garbage service, and gas offered by the City. The final category is the component unit. The City of Columbus has one component unit. Although legally separate from the City, the Columbus Community and Industrial Development Corporation is fiscally dependent upon the City and the City exercises control over the organization by appointing its members.

## **Fund Financial Statements**

The fund financial statements (see Figure 2) provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like all other governmental entities, uses fund accounting to ensure and reflect compliance with finance-related legal requirements, such as the general statutes or the City's budget ordinance. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other five governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

**Proprietary Funds.** The City has one kind of proprietary fund. Its Enterprise Fund is used to report the same programs presented as business-type activities in the government-wide financial statements. The City uses its Enterprise Fund (the Utility Fund) to account for its water, sewer, garbage and gas operations. This fund is the same as those programs shown in the business-type activities in the Statement of Net Position and the Statement of Activities.

Unrestricted net position of the water, sewer, garbage and gas departments at the end of the fiscal year amounted to \$290,136. The total decrease in unrestricted net position was \$182,621. Other factors concerning the finances of this fund are addressed later in the discussion of the City's business-type activities.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information (RSI) which contains information about the City's pension plans and other post-employment benefits plan. Schedules comparing actual results with the original budget and the final amended budget for the City's General Fund and Hotel/Motel Tax Fund are also presented in the RSI section.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

**City of Columbus' Net Position**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as one useful indicator of a government's financial condition. The assets and deferred inflows of the City of Columbus exceeded liabilities and deferred outflows by \$9,963,075 as of September 30, 2019. The City's net position increased by \$454,686 for the fiscal year ended September 30, 2019. Net investment in capital assets of \$8,446,825 accounts for the greatest portion (85%) of net position.

An additional portion of the City's net position (5%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$1,064,098 is unrestricted and may be used to meet the government's ongoing obligations.

Several particular aspects of the City's financial operations positively influenced the total unrestricted governmental net position:

- Continued diligence in the collection of property taxes by maintaining a tax collection percentage of 98%.
- Recovering City sales tax revenues mirrored those of the State of Texas and national economic trends.

**Governmental Activities.** Governmental activities increased the City's net position by \$193,826.

Key elements of this increase include the City expending less funds than budgeted and receiving more than anticipated.

**Business-type Activities.** Business-type activities increased the City of Columbus' net position by \$260,860.

**Financial Analysis of the City's Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the City's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$573,153. As a measure of the General Fund’s liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 19% percent of total General Fund expenditures.

The fund balance of the City’s General Fund increased by \$198,843 during the current fiscal year. This increase is a result of an increase in sales tax revenue.

The fund balance of the Hotel/Motel Tax Fund increased by \$27,890 or 7% during the current fiscal year. This increase is a result of decreased expenditures for tourism.

**Proprietary Fund.** The City’s Utility Fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Utility Fund at the end of the year amounted to \$290,136. The total increase in net position was \$260,860. Other factors concerning the finances of the Utility Fund have already been addressed in the discussion of the City’s business-type activities.

**General Fund Budgetary Highlights.** During the fiscal year, the City revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as federal and state grants; and 3) increases in appropriations that become necessary to maintain services.

Budgeted revenues increased slightly due to an increase in expected miscellaneous revenue.

Budgeted expenditures increased \$6,316 as supplemental appropriations were needed for maintenance needs in the culture and recreation function.

**Capital Asset and Debt Administration**

**Capital Assets.** The City of Columbus’ investment in capital assets for its governmental and business-type activities as of September 30, 2019, totals \$13,653,817 (net of accumulated depreciation). These assets include land, buildings and improvements, distribution and collection systems, machinery and equipment, and construction in progress.

**City of Columbus’ Capital Assets

Total	\$ <u>3,082,565</u>	\$ <u>3,097,747</u>	\$ <u>10,571,252</u>	\$ <u>10,461,209</u>	\$ <u>13,653,817</u>	\$ <u>13,558,956</u>

Major capital asset events during the year included the following:

- Public safety vehicle for \$52,428
- Gas line improvements for \$112,060
- Water plant improvements in the amount of \$306,991

Additional information on the City’s capital asset activity is presented in the notes to the financial statements on page 27.

**Long-term Debt.** As of September 30, 2019, the City of Columbus had total long-term certificates of obligation and general obligation bonds outstanding of \$6,737,381. This debt is backed by the full faith and credit of the City.

**City of Columbus' Outstanding Debt  
Figure 5**

	Governmental Activities		Business-type Activities		Total	
	2019	2018	2019	2018	2019	2018
Refunding general obligation bonds	\$ 614,294	\$ 681,197	\$ 3,150,707	\$ 3,568,804	\$ 3,765,001	\$ 4,250,001

Premium on bonds	-	-	231,566	255,319	231,566	255,319
Capital leases	55,056	-	63,533	-	118,589	-
Compensated absences	42,584	31,458	19,641	16,468	62,225	47,926
<b>Total</b>	<b>\$ 711,934</b>	<b>\$ 712,655</b>	<b>\$ 6,025,447</b>	<b>\$ 6,525,591</b>	<b>\$ 6,737,381</b>	<b>\$ 7,238,246</b>

The City's total debt decreased by \$500,865 (6.9%) during the current fiscal year. The key factor in this decrease was scheduled debt service payments offset by the issuance of capital leases.

Additional information regarding the City of Columbus' long-term debt can be found in the notes to the financial statements on pages 28 - 29.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

- The unemployment rate for Colorado County is currently 3.1 percent (Columbus is the largest of the three incorporated cities in the county), which is a decrease from a rate of 3.2 percent a year ago. This is below the state's average unemployment rate of 3.4 percent and the national average rate of 3.5 percent.
- Inflationary trends in the region compare favorably to national indices.
- The State Comptroller reported an increase of 3.0 percent in taxable sales for the City. Sales tax revenue has increased 67.1 percent since 2010. The City expects sales tax revenue growth to continue, with a budgeted increase for 2020 at 8.59 percent.
- Property tax values continue to climb in Colorado County and the region in general. Real property values in the City of Columbus increased \$9,791,516 from the prior year. Values have increased 35.1 percent from 2010. The City's overall property tax rate remained the same for the 2020 budget.
- For the 2020 Budget, the City maintained the minimum rates for water, sewer and gas. With the current rates set in 2019, along with the more accurate metering system, the cost for utility system maintenance and debt service requirements for the new water filtration system should be amply covered. The City's utility rates continue to remain low in comparison to cities of similar size.

All of these factors were considered in preparing the City's budget for the 2020 fiscal year.

**REQUESTS FOR INFORMATION**

This report is designed to provide an overview of the City's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Finance Director/City Secretary, P. O. Box 87, Columbus, Texas 78934, 979/732-2366, [www.columbustexas.net](http://www.columbustexas.net).

RECONCILIATION OF THE BALANCE SHEET OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

SEPTEMBER 30, 2019

Total fund balances - governmental funds balance sheet	\$ 2,199,273
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not reported in the funds.	3,082,565
Certain receivables will not be collected soon enough to pay for the current period's expenditures and are therefore deferred in the funds:	
Property taxes	10,256
Court fines and feeds	12,334
Accrued bond interest is not due and payable in the current period and therefore is not reported in the funds:	( 2,954)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.	
Bonds payable	( 614,294)
Capital leases	( 42,344)
Compensated absences	( 42,584)
Included in the items related to long-term liabilities is the recognition of the City's net pension liabilities and total OPEB liability, as well as the related deferred inflows and outflows of resources.	
Long-term liabilities:	
Net pension liability - TESRS	( 200,970)
Net pension liability - TMRS	( 1,065,557)
Total OPEB liability	( 118,983)
Deferred outflows of resources:	
Outflows related to TESRS pension	58,280
Outflows related to TMRS pension	418,548
Outflows related to OPEB	5,739
Deferred inflows of resources:	
Inflows related to TESRS pension	( 243)
Inflows related to TMRS pension	( 40,258)
Inflows related to OPEB	<u>( 6,767)</u>
Net position of governmental activities	\$ <u>3,652,041</u>

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED SEPTEMBER 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	292,226
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.</p>		
Capital outlay		229,342
Depreciation	(	244,524)
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>		
Unavailable tax revenue	(	566)
Unavailable municipal court revenue		4,153
<p>The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Bond principal payments		75,378
Issuance of capital leases payable	(	63,531)
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.</p>		
Pension cost	(	79,331)
OPEB cost	(	8,446)
Compensated absences	(	11,126)
Accrued interest		<u>251</u>
Change in net position of governmental activities.	\$	<u>193,826</u>

**CITY OF COLUMBUS, TEXAS**

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Columbus have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described below:

**A. The Reporting Entity**

The City of Columbus was incorporated under the laws of the State of Texas in 1927 and operates under a Manager-Council form of government. The following services are provided by the City: public safety (police and fire), public works (streets and drainage), parks and recreation, and utilities (water, sewer, garbage, and natural gas).

The accompanying financial statements present the City and its component unit, an entity for which the City is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statement to emphasize that it is legally separate from the City.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB). The more significant accounting policies of the City are described below:

The following component unit is discretely presented:

**The Columbus Community Industrial and Development Corporation** (the "Corporation" or "CCIDC") is a nonprofit corporation organized pursuant to the provisions of the Development Corporation Act of 1979, and is responsible for promoting, assisting and enhancing economic development activities within the City's jurisdiction. The members of the Corporation's governing board are appointed by the Mayor and approved by the City Council. The Corporation is fiscally dependent upon the City as the City levied a ½ cent sales and use tax for the benefit of the Corporation.

Financial statements for the individual component unit may be obtained at the entity's administrative offices:

Columbus Community and Industrial  
Development Corporation  
P. O. Box 87  
Columbus, Texas 78934

**B. Government-wide Financial Statements**

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the City. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given program; and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The City segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements; all nonmajor funds are aggregated and presented in a single column.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for interfund services provided and other charges between the City's various other functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

### **C. Measurement Focus/Basis of Accounting**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The revenues susceptible to accrual are property taxes, licenses, charges for service, interest income and intergovernmental revenues. Sales taxes collected and held by the state at year-end on behalf of the government are also recognized as revenue. All other governmental fund revenues are considered to be measurable and available only when cash is received by the City.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources.

The City reports the following major governmental funds:

The **General Fund** is the operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

The **Hotel Occupancy Tax Fund** is used to collect Hotel/Motel taxes which are used to support trade and tourism in the City. Revenue derived from hotel occupancy taxes is legally restricted to certain expenditures such as those expenditures associated with promotion of tourism.

The City has presented the following major proprietary fund:

The **Utility Fund** is used to account for the provision of water, sewer, natural gas services, and garbage collection to the residents of the City. Activities of the fund include administration, operations and maintenance of the water, sewer, and natural gas systems and billing and collection activities for garbage collection. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary's principal ongoing operations. Operating expenses for the proprietary fund include the cost of sales and services, administrative services, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

**D. Cash and Investments**

The City pools cash resources of its Governmental and Utility Funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing deposits and disclosed as part of the City's deposits and investments.

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments in government pools are recorded at amortized cost. All other investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

**E. Investment in Land**

The City's component unit reports land for resale for future development and was obtained to provide new opportunities for commercial and industrial redevelopment and to spur job creation. The land was not obtained to be a profit or income generating investment to the component unit. This land is available for sale and is stated at the lower of cost or net realizable value.

**F. Interfund Receivables and Payables**

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

**G. Restricted Assets**

Certain assets of the City are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by debt covenants.

**H. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at acquisition cost, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. General infrastructure assets acquired prior to October 1, 2003, are not reported in the basic financial statements.

Assets capitalized, not including infrastructure assets, have an original cost of \$5,000 or more and a useful life of over one year.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Assets	Years
Buildings	20-50
Improvements	10-50
Machinery and equipment	5-20

**I. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has the following items that qualify for reporting in this category.

- Deferred charges on refunding – A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.
- Pension and OPEB contributions after measurement date – These contributions are deferred and recognized in the following fiscal year.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five-year period.
- Difference in expected and actual pension experience – This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

In addition to liabilities, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has the following items that qualify for reporting in this category.

- Unavailable revenue is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Difference in expected and actual pension experience - This difference is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.
- Difference in projected and actual earnings on pension assets – This difference is deferred and amortized over a closed five-year period.
- Changes in actuarial assumptions – These changes are deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

## **J. Pensions**

For purposes of measuring the net pension liability, pension related deferred outflows and inflows of resources, and pension expense, City specific information about its Fiduciary Net Position in the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability for the Texas Emergency Services Retirement System (TESRS), pension related deferred outflows and inflows of resources, and pension expense, information about the fiduciary net position of TESRS and additions to/deductions from TESRS's fiduciary net position have been determined on the same basis as they are reported by TESRS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## **K. Other Post-Employment Benefits**

***TMRS Supplemental Death Benefits Fund.*** For purposes of measuring the total Texas Municipal Retirement System Supplemental Death Benefit Fund (TMRS SDBF) OPEB liability, related deferred outflows and inflows of resources, and expense, City specific information about its total TMRS SDBF liability and additions to/deductions from the City's total TMRS SDBF liability have been determined on the same basis as they are reported by TMRS. The TMRS SDBF expense and deferred (inflows)/outflows of resources related to TMRS SDBF, primarily result from changes in the components of the total TMRS SDBF liability. Most changes in the total TMRS SDBF liability will be included in TMRS SDBF expense in the period of the change. For example, changes in the total TMRS SDBF liability resulting from current-period service cost, interest on the TOL, and changes of benefit terms are required to be included in TMRS SDBF expense immediately. Changes in the total TMRS SDBF liability that have not been included in TMRS SDBF expense are required to be reported as deferred outflows of resources or deferred inflows of resources related to TMRS SDBF.

## **L. Compensated Absences**

Fulltime permanent employees are granted vacation benefits in increasing amounts depending on their years of service with the City. Generally, vacation leave may not be accumulated or carried over. Earned vacation leave not used by the employee's anniversary hire date will be lost as vacation leave and converted to sick leave. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Accumulated sick leave is for the sole purpose of permitting an employee to be relieved of his duties during actual illness and may not be used under any other circumstances. There is no liability for unpaid accumulated sick leave since the City does not pay any amounts when employees separate from service.

## **M. Long-term Obligations**

In the government-wide financial statements and the proprietary fund in the fund financial statements, the long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount and deferred amount on refunding.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## **N. Fund Balance**

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- **Restricted:** This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- **Assigned:** This classification includes amounts that are constrained by the City's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the City Council.
- **Unassigned:** This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

## **O. Net Position**

Net position represents the difference between assets, deferred outflows/inflows of resources and liabilities. Net position investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

## **P. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimates.

## **2. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS**

### **A. Cash, Cash Equivalents and Investments**

The City's deposits and investments are permitted by The Public Funds Investment Act and the City of Columbus' adopted Investment Policy.

The Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code (the "Act"), provide for the creation of public funds investment pools, such as Texas CLASS, through which political subdivisions and other entities may invest public funds.

Texas CLASS has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

**Credit Risk.** The City’s investment policy, in an effort to control credit risk, requires depositories to provide 102% of the carrying value of the City’s time or demand deposits as collateral. The City also only invests in governmental investment pools which maintain a constant dollar value.

At year-end, the City’s investments were in the Texas Cooperative Liquid Assets Securities System (Texas CLASS). The carrying amount of the investments was \$957,738. Texas CLASS is a local government investment pool supervised by a Board of Trustees who is elected by its participants. Texas CLASS invests solely in securities permitted under the Public Funds Investment Act. Texas CLASS is not registered with the SEC. As an intergovernmental trust comprised solely of governmental entities, it is statutorily exempt from registration. The Program Administrator/Investment Advisor to Texas CLASS, MBIA Municipal Investors Service Corp., is registered with the SEC as a Registered Investment Advisor. The Texas CLASS program is rated AAAM by Standard & Poor’s.

**Custodial Credit Risk – Deposits.** In the case of deposits, this is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. The bank balance was covered by federal depository insurance or by collateral held in the pledging financial institution’s trust department in the City’s name.

**Interest Rate Risk.** Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. In accordance with its investment policy, the City manages its exposure to interest rate risk by allowing no more than 20% of its investments to have maturities greater than one year. The City’s funds in Texas CLASS have a dollar weighted average maturity of 49 days.

**B. Receivables**

Receivables at September 30, 2019, were as follows:

	<u>General</u>	<u>Hotel/ Motel Tax</u>	<u>Nonmajor Governmental</u>	<u>Utility</u>	<u>Total Receivables</u>
Property taxes	\$ 21,689	\$ -	\$ 3,530	\$ -	\$ 28,281
Sales taxes	196,913	-	-	-	196,913
Hotel/motel taxes	-	91,697	-	-	91,697
Franchise taxes	97,575	-	-	-	97,575
Mixed beverage taxes	4,299	-	-	-	4,299
Intergovernmental	3,750	-	-	-	3,750
Utility accounts	-	-	-	420,623	420,623
Municipal court	<u>129,851</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>129,851</u>
Less: allowance for doubtful accounts	<u>( 130,026)</u>	<u>-</u>	<u>( 1,612)</u>	<u>( 22,909)</u>	<u>( 154,547)</u>
Total	<u>\$ 324,051</u>	<u>\$ 91,697</u>	<u>\$ 1,918</u>	<u>\$ 397,714</u>	<u>\$ 815,380</u>

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are payable by February 1, at which time they become delinquent. The Colorado County Central Appraisal District assesses bills and collects property taxes for the City.

### C. Capital Assets

Capital asset activity for the year ended September 30, 2019, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
<u>Governmental activities:</u>				
Capital assets not being depreciated:				
Land	\$ 520,086	\$ -	\$ -	520,086
Construction in progress	<u>16,268</u>	<u>10,899</u>	<u>6,301</u>	<u>20,866</u>
Total capital assets not being depreciated	<u>536,354</u>	<u>10,899</u>	<u>6,301</u>	<u>540,952</u>
Capital assets being depreciated:				
Buildings and improvements	3,650,604	31,256	-	3,681,860
Machinery and equipment	<u>3,150,341</u>	<u>193,488</u>	<u>72,609</u>	<u>3,271,220</u>
Total capital assets being depreciated	<u>6,800,945</u>	<u>224,744</u>	<u>72,609</u>	<u>6,953,080</u>
Less accumulated depreciation for:				
Buildings and improvements	1,566,180	81,976	-	1,648,156
Machinery and equipment	<u>2,673,372</u>	<u>162,548</u>	<u>72,609</u>	<u>2,763,311</u>
Total accumulated depreciation	<u>4,239,552</u>	<u>244,524</u>	<u>72,609</u>	<u>4,411,467</u>
Total capital assets depreciated, net	<u>2,561,393</u>	( 19,780)	-	<u>2,541,613</u>
Governmental activities, capital assets, net	<u>\$ 3,097,747</u>	<u>\$ ( 8,881)</u>	<u>\$ 6,301</u>	<u>\$ 3,082,565</u>
	Beginning Balance	Increases	Decreases	Ending Balance
<u>Business-type activities:</u>				
Capital assets not being depreciated:				
Land	\$ 24,183	\$ -	\$ -	\$ 24,183
Construction in progress	<u>1,527,284</u>	<u>583,493</u>	<u>-</u>	<u>2,110,777</u>
Total capital assets not being depreciated	<u>1,551,467</u>	<u>583,493</u>	<u>-</u>	<u>2,134,960</u>
Capital assets being depreciated:				
Buildings and improvements	581,700	-	-	581,700
Distribution and collection systems	17,440,565	-	-	17,440,565
Machinery and equipment	<u>907,749</u>	<u>168,569</u>	<u>61,086</u>	<u>1,015,232</u>
Total capital assets being depreciated	<u>18,930,014</u>	<u>168,569</u>	<u>61,086</u>	<u>19,037,497</u>
Less accumulated depreciation for:				
Buildings and improvements	581,700	-	-	581,700
Distribution and collection systems	8,679,588	593,562	-	8,679,588
Machinery and equipment	<u>758,995</u>	<u>48,446</u>	<u>61,086</u>	<u>868,515</u>
Total accumulated depreciation	<u>10,020,283</u>	<u>642,008</u>	<u>61,086</u>	<u>10,601,205</u>
Total capital assets depreciated, net	<u>8,909,731</u>	( 473,439)	-	<u>8,436,292</u>
Business-type activities, capital assets, net	<u>\$ 10,461,198</u>	<u>\$ 110,054</u>	<u>\$ -</u>	<u>\$ 10,571,252</u>

Depreciation expense was charged to functions/programs of the City as follows:

<u>Governmental activities:</u>	
General government	\$ 24,637
Public safety	129,766
Public health	6,198
Public works	31,932
Culture and recreation	<u>51,991</u>
Total governmental activities	<u>\$ 244,524</u>
<u>Business-type activities:</u>	
Water	\$ 368,125
Sewer	157,408
Garbage	2,692
Gas	<u>113,783</u>
Total business-type activities	<u>\$ 642,008</u>

#### D. **Interfund Receivables, Payables, and Transfers**

##### **Interfund Receivables and Payables**

The composition of the interfund balances as of September 30, 2019, is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Utility	\$ 232,561
Utility	General	<u>7,622</u>
Total		\$ <u>240,183</u>

The outstanding balances between funds result mainly from the time lag between the dates that a) reimbursable expenditures occur; b) transactions are recorded in the accounting system; and c) payments between funds are made. All balances are expected to be repaid within one year.

##### **Transfers In/Transfers Out**

Interfund activity for the year ended September 30, 2019, is as follows:

<u>Transfer To</u>	<u>Transfer From</u>	<u>Amount</u>
General	Utility	\$ 685,152
Utility	Nonmajor governmental	206
Nonmajor governmental	Nonmajor governmental	10,000
Nonmajor governmental	General	33,295
Nonmajor governmental	Utility	<u>22,154</u>
Total		\$ <u>750,807</u>

The General Fund transferred \$33,295 to nonmajor governmental funds to cover future capital purchases. The nonmajor governmental funds transferred \$10,000 to the General Fund for the purchase of equipment. The Utility Fund transferred \$685,152 to the General Fund to cover budgeted indirect costs and for payments in lieu of taxes.

#### E. **Long-term Debt**

The following is a summary of changes in long-term liabilities for the year ended September 30, 2019.

##### **Primary Government**

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Refunding GO bonds	\$ 681,197	\$ -	\$ 66,903	\$ 614,294	\$ 66,903
Compensated absences	31,458	79,361	68,235	42,584	10,646
Capital leases	-	<u>63,531</u>	<u>8,475</u>	<u>55,056</u>	<u>12,712</u>
Total	\$ <u>712,655</u>	\$ <u>142,892</u>	\$ <u>143,613</u>	\$ <u>711,934</u>	\$ <u>90,261</u>
Business-type activities:					
Certificates of obligation	\$ 2,685,000	\$ -	\$ 125,000	\$ 2,560,000	\$ 125,000
Refunding GO bonds	3,568,804	-	418,097	3,150,707	423,097
Premium on bonds	255,319	-	23,753	231,566	-
Notes payable	189,600	-	189,600	-	-
Capital leases	-	71,849	8,316	63,533	14,370
Compensated absences	<u>16,468</u>	<u>18,762</u>	<u>15,589</u>	<u>19,641</u>	<u>4,911</u>
Total	\$ <u>6,715,191</u>	\$ <u>90,611</u>	\$ <u>780,355</u>	\$ <u>6,025,447</u>	\$ <u>567,378</u>

The compensated absences liability for governmental activities is generally liquidated by the General Fund.

## Component Unit

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
<u>CCIDC</u>					
Sales tax revenue bonds	\$ 815,000	\$ -	\$ 125,000	\$ 690,000	\$ 125,000
Premium on bonds	<u>2,462</u>	<u>-</u>	<u>591</u>	<u>1,871</u>	<u>-</u>
Total	<u>\$ 933,053</u>	<u>\$ -</u>	<u>\$ 125,591</u>	<u>\$ 807,462</u>	<u>\$ 125,000</u>

## Certificates of Obligation

The City has issued certificates of obligation to provide funds for the acquisition and construction of major capital facilities. The original amount of Certificates of Obligation issued in 2005 was \$4,750,000 for water and sewer improvements. These bonds were refunded by the 2013 Refunding General Obligation Bonds at annual interest rates from 1.00% to 3.00% with a maturity date of August 2025.

## General Obligation Bonds

Certificates of obligation were issued in 2008 in the amount of \$4,000,000 for water and gas improvements and remodeling City Hall. These bonds were refunded by the 2010 Refunding General Obligation Bonds at annual interest rates from 2.00% to 4.00% with a maturity date of August 2027. The City issued \$3,065,000 of General Obligation Refunding Bonds, Series 2013 with interest rates ranging from 1.0%-3.0%. The proceeds were used to refund \$3,055,000 of outstanding Series 2005 certificates of obligation which had interest rates ranging from 3.0%-4.85%.

## Combination Tax & Revenue Certificates of Obligation

Certificates of obligation were issued in October of 2016 in the amount of \$2,935,000. The \$3,000,000 proceeds will be used for a water filtration system, and gas and sewer improvements. With interest rates ranging from 2.0%-3.0%, the maturity date for the Series 2016 Certificates of Obligations is August 2036.

## Sales Tax Revenue Bonds

The Columbus Community Industrial Development Corporation component unit has issued sales tax revenue bonds for the acquisition and construction of major capital facilities. The original amount of the bonds issued in prior years was \$2,170,000 for water and sewer lines and street and drainage improvements at the Texas Crossroads Industrial Park. These bonds were refunded by the 2010 Sales Tax Refunding Bonds at annual interest rates from 2.00% to 4.00% with a maturity date of November 2023.

## Notes Payable

In 2014, the City entered into an agreement for financing the acquisition of automatic meter readers in the amount of \$900,000. The annual interest rate is 2.695%. This debt was retired in August 2019.

## Capital Leases

The City is obligated under a master lease agreement for 6 vehicles. The leases carry an interest rate of 1.25% and mature 60 months after signing. The outstanding leases at September 30, 2019 are as follows:

### Governmental Activities:

3 Ford F-250 trucks payable in 60 monthly installments of \$1,445, including interest. \$ 55,056

### Business-type Activities:

3 Ford F-250 trucks payable in 60 monthly installments of \$1,620, including interest. \$ 63,533

The annual debt service requirements on long-term bonds are as follows for the City and its component unit.

	Primary Government				Component Unit	
	Governmental Activities		Business-type Activities		Sales Tax Revenue Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2020	\$ 66,903	\$ 23,633	\$ 548,097	\$ 168,079	\$ 125,000	\$ 24,222
2021	69,944	21,458	565,056	153,854	130,000	19,756
2022	72,985	19,098	582,015	137,602	140,000	14,600
2023	74,506	16,178	600,494	119,772	145,000	8,900
2024	77,547	13,198	617,453	101,402	150,000	3,000
2024-2028	252,409	20,436	1,617,592	277,314	-	-
2029-2033	-	-	815,000	129,150	-	-
2034-2036	-	-	365,000	16,500	-	-
Totals	\$ <u>614,294</u>	\$ <u>114,001</u>	\$ <u>5,710,707</u>	\$ <u>1,103,673</u>	\$ <u>690,000</u>	\$ <u>70,478</u>

Annual debt service requirements to maturity for capital leases are as follows:

Fiscal Year	Governmental Activities	Business-type Activities
2020	\$ 17,342	\$ 19,439
2021	17,342	19,439
2022	17,342	19,439
2023	17,342	19,439
2024	5,751	8,172
Total amount of minimum lease payments	\$ 75,119	\$ 85,928
Less: amount representing interest	(20,063)	(22,395)
Present value of minimum lease payments	\$ <u>55,056</u>	\$ <u>63,533</u>

The City's direct borrowings (capital leases) related to governmental activities and business-type activities are secured with equipment as collateral. The City's certificates of obligation are payable from the levy and collection of annual ad valorem tax levied on all taxable property within the City and from a limited pledge, not to exceed \$1,000, of the surplus revenues of the City's combined utility system. The City's general obligations are payable from the levy and collection of property taxes of annual ad valorem tax levied on all taxable property within the City.

The CCIDC's sales tax revenue bonds are payable solely by a pledge of and lien on pledged revenues which include the gross proceeds of a ½ of 1% sales and use tax levied within the City for the benefit of CCIDC.

Should the City default on its outstanding bonds, any registered owner of the certificates is entitled to seek a writ of mandamus from a court of proper jurisdiction requiring specific performance from the City.

### 3. OTHER INFORMATION

#### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For its liability, property and workers' compensation insurance, the City is a participant in the Texas Municipal League Intergovernmental Risk Pool (TML), a public entity risk pool operated by The Texas Municipal League for the benefit of political subdivisions of the State of Texas. The City pays an annual premium to TML for this coverage.

TML is considered a self-sustaining risk pool that will provide coverage for its members for up to \$1 million per occurrence for property damage, \$1 million per occurrence for general liability and \$1 million per occurrence for workers' compensation. TML obtains independent coverage for insured events in excess of the amounts listed above. There have been no significant reductions in insurance coverage and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

**B. Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time.

**C. Employee Retirement Systems**

**Defined Benefit Pension Plan – Texas Municipal Retirement System**

**Plan Descriptions**

The City participates as one of 887 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS’s defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.tmr.com](http://www.tmr.com). All eligible employees of the City are required to participate in TMRS.

**Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee’s contributions, with interest, and the City-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member’s deposits and interest.

The City has approved an annually repeating (automatic) basis a monetary credit referred to as an updated service credit (USC) which is a theoretical amount which takes into account salary increases or plan improvements. If at any time during their career an employee earns a USC, this amount remains in their account earning interest at 5% until retirement. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer match plus employer-financed monetary credits, such as USC, with interest were used to purchase an annuity. Additionally, City provides on an annually repeating (automatic) basis cost of living adjustments (COLA) for retirees equal to a percentage of the change in the consumer price index (CPI).

A summary of plan provisions for the City are as follows:

Employee deposit rate	6.0%
Matching ratio (City to employee)	2 to 1
Years required for vesting	5 years
Service retirement eligibility	25 years to any age, 5 years at age 60 and above
Updated service credit	100% repeating
Annuity increase to retirees	70% of CPI repeating

**Employees covered by benefit terms**

At the December 31, 2018 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	28
Inactive employees entitled to but not yet receiving benefits	26
Active employees	<u>38</u>
Total	<u>92</u>

**Contributions**

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are with 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contributions rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 6.0% of their annual gross earnings during the fiscal year. The contribution rates for the City were 13.84% and 12.39% in calendar years 2018 and 2019, respectively. The City’s contributions to TMRS for the year ended September 30, 2018, were \$235,013, and were equal to the required contributions.

**Net Pension Liability**

The City’s Net Pension Liability (NPL) was measured as of December 31, 2018, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

**Actuarial assumptions:**

The Total Pension Liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	3.00% per year
Investment rate of return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2010 to December 31, 2014. They were adopted in 2015 and first used in the December 31, 2015 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. In conjunction with these changes first used in the December 31, 2013 valuation, the System adopted the Entry Age Normal actuarial cost method and a one-time change to the amortization policy. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of plant investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of arithmetic real rates return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
U.S. Equities	17.5%	4.30%
International Equities	17.5%	6.10%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.39%
Real Return	10.0%	3.78%
Real Estate	10.0%	4.44%
Absolute Return	10.0%	3.56%
Private Equity	5.0%	7.75%
Total	100.0%	

### **Discount Rate**

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

### **Changes in the Net Pension Liability**

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balance at 12/31/2017	\$ 8,260,291	\$ 7,522,789	\$ 737,502
Changes for the year:			
Service cost	247,345	-	247,345
Interest	556,914	-	556,914
Difference between expected and actual experience	7,809	-	7,809
Contributions - employer	-	248,241	( 248,241)
Contributions - employee	-	107,619	( 107,619)
Net investment income	-	( 225,298)	225,298
Benefit payments, including refunds of employee contributions	( 266,785)	( 266,785)	-
Administrative expense	-	( 4,355)	4,355
Other changes	-	( 227)	227
Net changes	545,283	( 140,805)	686,088
Balance at 12/31/2018	\$ 8,805,574	\$ 7,381,984	\$ 1,423,590

In the governmental activities, the net pension liability is generally liquidated by the General Fund.

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-higher (7.75%) than the current rate:

	1% Decrease in Discount Rate (5.75%)	Discount Rate (6.75%)	1% Increase in Discount Rate (7.75%)
City's net pension liability	\$ 20,604,775	\$ 1,423,590	\$ 448,142

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. The report may be obtained on the Internet at [www.tMrs.org](http://www.tMrs.org).

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended September 30, 2019, the City recognized pension expense of \$234,175 and \$78,684 in the governmental activities and business-type activities, respectively, for this plan. Total pension expense for both pension plans was \$360,481. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,628	\$ 53,785
Difference between projected and actual investment earnings	388,704	-
Contributions subsequent to the measurement date	<u>164,850</u>	<u>-</u>
Total	<u>\$ 559,182</u>	<u>\$ 53,785</u>

\$164,850 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

For the Year Ended September 30,	
2020	\$ 107,018
2021	32,348
2022	54,563
2023	146,618

**DEFINED BENEFIT PENSION PLAN – TEXAS EMERGENCY SERVICES RETIREMENT SYSTEM**

**Plan Description**

The City participates in the Texas Emergency Services Retirement System (TESRS), a cost-sharing multiple-employer defined benefit pension established and administered by the State of Texas. The TESRS is an agency of the State of Texas and its financial records comply with state statutes and regulations. The nine members Board of Trustees, appointed by the Governor, establishes policy for the administration of the Texas Emergency Services Retirement System. TESRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at [www.tesrs.org](http://www.tesrs.org).

The TESRS was created as a standalone agency by the 83rd Legislature via the passage of SB 220, effective September 1, 2013, to assume the related functions of the abolished Office of the Fire Fighters' Pension Commissioner. While the agency is relatively new, the System has been in existence since 1977. TESRS, which is under the authority of Title 8, Subtitle H, Chapters 861-865 of the Texas Government Code, provides death and disability benefits to active volunteer fire fighters and first responders, and a pension to members with vested service, as well as to their survivor/beneficiaries.

### **Pension Plan Fiduciary Net Position**

For financial reporting purposes, the State of Texas is considered the primary reporting government. TESRS' financial statements are included in the State's Comprehensive Annual Financial Report. TESRS issues a publicly available Annual Financial Report, which includes financial statements, notes, and required supplementary information, which can be obtained at [www.tesrs.org](http://www.tesrs.org).

### **Benefits Provided**

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for each of the next five years of service so that a member becomes 100% vested with 15 years of service.

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to their vested percent multiplied by six times the governing body's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2% compounded annually. There is no provision for automatic postretirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

### **Contributions**

Contributions are made by the City for the participating employees. No contributions are required from the individuals who are members of the TESRS, nor are they allowed. The City makes contributions of \$80 per month per member. Contributions to the pension plan for the year ended September 30, 2019, were \$32,400.

### **Actuarial Assumptions**

The total pension liability in the August 31, 2018, actuarial valuation was determined using the following actuarial assumptions:

Inflation	3.00%
Salary increases	None
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Healthy Lives Mortality Tables for males and for females projected to 2024 by scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage (currently 5.01%) and by adding expected inflation (3.00%). In addition, the final 7.75% assumption was selected by "rounding down" and thereby reflects a reduction of 0.26% for adverse deviation. The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Portfolio Real Rate of Return
Equities:		
Large cap domestic	32.0%	5.81%
Small cap domestic	15.0%	5.92%
Developed international	15.0%	6.21%
Emerging markets	5.0%	7.18%
Master limited partnership	5.0%	7.61%
Fixed income	23.0%	1.61%
Real estate	5.0%	4.46%
Total	100.0%	

### Discount Rate

The discount rate used to measure the total pension liability was 7.75%. No projection of cash flows was used to determine the discount rate because the August 31, 2018 actuarial valuation showed that expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability (UAAL) in 30 years using the conservative level dollar amortization method. Because of the 30-year amortization period with the conservative amortization method and with a lower value of assets, the pension plan's fiduciary net position is expected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the City's proportionate share of the net pension liability, calculated using the discount rate of 7.75%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.75%) or 1 percentage point higher (8.75%) than the current rate:

	1% Decrease in Discount Rate (6.75%)	Discount Rate (7.75%)	1% Increase in Discount Rate (8.75%)
City's proportionate share of the net pension liability	\$ 357,193	\$ 200,970	\$ 96,397

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2019, the City reported a liability of \$200,970 for its proportionate share of the TERS's net pension liability. The net pension liability was measured as of August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to contributions of all participating employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019 the employer's proportion of the collective net pension liability was 0.709%, which was an increase of 0.008% when compared to August 31, 2018.

For the year ended September 30, 2019, the City's pension expense was \$47,622 in the governmental activities for this plan. Total pension expense for both pension plans was \$360,481. At September 30, 2019, the City reported its proportionate share of the TESRS's deferred outflows and inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ -	\$ 243
Difference between projected and actual investment earnings	25,880	-
Contributions paid to TESRS subsequent to the measurement date	<u>32,400</u>	<u>-</u>
Total	<u>\$ 58,280</u>	<u>\$ 243</u>

\$32,400 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended September 30, 2020. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>For the Year Ended September 30</u>	
2020	\$ 5,456
2021	2,861
2022	6,360
2023	10,960

#### **D. Defined Other Post-Employment Benefit Plans**

##### **TMRS SUPPLEMENTAL DEATH BENEFITS FUND**

**Plan Description.** The City voluntarily participates in the Texas Municipal Retirement System Supplemental Death Benefits Fund (TMRS SDBF). The SDBF is a single-employer defined benefit Other Postemployment Benefit (OPEB) plan as defined by GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. It is established and administered in accordance with the TMRS Act identically to the City's pension plan.

**Benefits Provided.** The SDBF provides group-term life insurance to City employees who are active members in TMRS, including or not including retirees. The City Council opted into this program via an ordinance, and may terminate coverage under, and discontinue participation in, the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

Payments from this fund are similar to group-term life insurance benefits, and are paid to the designated beneficiaries upon the receipt of an approved application for payment. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings for the 12-month period preceding the month of death). The death benefit for retirees is considered an other employment benefit and is a fixed amount of \$7,500.

The number of employees currently covered by the benefit terms is as follows:

Inactive employees currently receiving benefits	22
Inactive employees entitled to but not yet receiving benefits	11
Active employees	<u>38</u>
Total	<u>71</u>

**Contributions.** The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation, which was 0.22% for 2019 and 0.21% for 2018, of which 0.06% and 0.07%, respectively, represented the retiree-only portion for each year, as a percentage of annual covered payroll. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to prefund retiree term life insurance during employees' entire careers. The City's contributions to the SDBF for the years ended September 30, 2019 and 2018 were \$3,992 and \$3,685, respectively, representing contributions for both active and retiree coverage, which equaled the required contributions each year.

**Actuarial Assumptions.** The Total OPEB Liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions:

Inflation rate	2.50% per annum
Discount rate	3.71%
Actuarial cost method	Entry Age Normal Method
Projected salary increases	3.50% to 10.5% including inflation

Salary increases were based on a service-related table.

Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with male rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who became disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor. Administrative expenses for the SDBF are paid through the TMRS Pension Trust Fund and are wholly accounted for under the provisions of GASB Statement No. 68.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period December 31, 2010 to December 31, 2014.

**Discount Rate.** The SDBF program is treated as an unfunded OPEB plan because the SDBF trust covers both actives and retirees and the assets are not segregated for these groups. As such, a single discount rate of 3.71% was used to measure the Total OPEB Liability. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The source of the municipal bond rate was fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2018.

**Discount Rate Sensitivity Analysis.** The following schedule shows the impact of the Total OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.71%) in measuring the Total OPEB Liability.

	1% Decrease in Discount Rate (2.71%)	Discount Rate (3.71%)	1% Increase in Discount Rate (4.71%)
Total OPEB Liability	\$ 187,490	\$ 158,962	\$ 136,225

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources Related to OPEBs.** At September 30, 2019, the City reported a liability of \$158,962 for its Total OPEB Liability. The Total OPEB Liability was determined by an actuarial valuation as of December 31, 2018. For the year ended September 30, 2019, the City recognized OPEB expense of \$10,152. There were no changes of benefit terms that affected measurement of the Total OPEB Liability during the measurement period.

**Changes in the Total OPEB Liability**

	<u>Total OPEB Liability</u>
Balance at 12/31/2017	\$ 161,528
Changes for the year:	
Service cost	4,663
Interest	5,406
Difference between expected and actual experience	( 960)
Changes of assumptions or other inputs	( 10,599)
Benefit payments	( 1,076)
Net changes	( 2,566)
Balance at 12/31/2018	\$ <u>158,962</u>

In the governmental activities, the total OPEB liability is generally liquidated by the General Fund.

Changes in assumptions reflect a change in the discount rate from 3.31% to 3.71%.

At September 30, 2019, the City reported deferred outflows and inflows of resources related to other post-employment benefits from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	-	\$ 751
Changes in actuarial assumptions	6,736	8,290
Contributions subsequent to the measurement date	<u>931</u>	<u>-</u>
	\$ <u>7,667</u>	\$ <u>9,041</u>

\$931 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the Total OPEB Liability for the year ending September 30, 2020. Other amounts of the reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>For the Year Ended September 30</u>	
2020	\$ 83
2021	83
2022	( 984)
2023	( 1,487)

**E. Economic Development Agreement**

The City enters into economic development agreements designed to promote development and redevelopment within the City, stimulate commercial activity, generate additional sales tax and enhance the property tax base and economic vitality of the City. This program reduces the assessed property tax values as authorized under Chapter 381 of the Texas Local Government Code.

The City has entered into a tax abatement agreement dated October 2012, with a developer to reduce the assessed property tax value for constructing, equipping, and operating an oil and gas production equipment manufacturing facility. The City agrees to abate 100% of ad valorem taxation of the Certified Appraised Value of all Eligible Property for the first two years, 75% in year three, 50% in year four, and 25% in year 5. In fiscal year 2019, the City rebated property taxes in the amount of \$12,494.

**CITY OF COLUMBUS, TEXAS**

NOTES TO BUDGETARY INFORMATION

FOR THE YEAR ENDED SEPTEMBER 30, 2019

**BUDGETARY INFORMATION**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the Capital Projects Fund, which adopted a project-length budget. All annual appropriations lapse at fiscal year-end.

The City's fiscal year is the 12-month period beginning October 1. The departments submit to the City Manager a budget of estimated expenditures for the ensuing fiscal year after which the City Manager subsequently submits a budget of estimated expenditures and revenues to the City Council by September 1. The City Manager also files this proposed budget with the municipal clerk before the 30<sup>th</sup> day before the date the City Council makes its tax levy for the fiscal year. Upon receipt of the budget estimates, the Council holds public hearings on the proposed budget. On final approval of the budget by the City Council, the budget is filed with the municipal clerk and posted on the City's website.

The City Manager is authorized to transfer budgeted amounts between line items and departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

Budgeted amounts are as originally adopted or as amended by the City Council. The Council made several supplemental budgetary appropriations throughout the year which increased total budgeted expenditures by \$38,243 for increased maintenance needs, as well as a library grant for shelving in the culture and recreation function. In addition, a budget amendment was made for \$10,645 for the sale of capital assets.

SCHEDULE OF TMRS CONTRIBUTIONS

FOR THE YEAR ENDED SEPTEMBER 30, 2019

<b>Fiscal Year September 30,</b>	<u><b>2014</b></u>	<u><b>2015</b></u>	<u><b>2016</b></u>
Actuarial determined contribution	\$ 234,237	\$ 222,113	\$ 218,454
Contributions in relation to the actuarially determined contribution	( 234,237)	( 222,113)	( 218,454)
Contribution deficiency (excess)	-	-	-
Covered payroll	1,659,459	1,629,065	1,651,318
Contributions as a percentage of covered payroll	14.12%	13.63%	13.23%

**NOTES TO SCHEDULE OF TMRS CONTRIBUTIONS**

**Valuation Date** Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

**Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	27 years
Asset Valuation Method	10 Year smoothed market; 15% soft corridor
Inflation	2.50%
Salary Increases	3.50% to 10.50% including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the City's plan of benefits. Last updated for the 2015 valuation pursuant to an experience study of the period 2010-2014.
Mortality	RP2000 Combined Mortality Table with Blue Collar Adjustment with male rates multiplied by 109% and female rates multiplied by 103% and projected on a fully generational basis with scale BB.

Note: The schedule is intended to show 10 years of information, additional years will be presented as it becomes available.

<b>2017</b>	<b>2018</b>	<b>2019</b>

## Notes:

See Table 8 for property value data.

See Table 16 for population data.

**CITY OF COLUMBUS, TEXAS**

DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT

AS OF SEPTEMBER 30, 2019

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable <sup>(1)</sup>	Estimated Share of Overlapping Debt
Debt repaid with property taxes			
Columbus Independent School District	\$ 8,474,989	30.19%	\$ 2,558,599
Colorado County	5,305,998	12.48%	<u>662,188</u>
Subtotal overlapping debt			3,220,788
City of Columbus direct debt			<u>614,294</u>
Total direct and overlapping debt			<u>\$ 3,835,082</u>

Sources: Assessed value data used to estimate applicable percentages provided by the Colorado County Central Appraisal District. Debt outstanding data provided by the County Auditor and Columbus Independent School District.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Columbus. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's and school district's taxable assessed value that is within the City's boundaries and dividing it by the county's and school district's total taxable assessed value.

## **COMPLIANCE SECTION**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and  
Members of the City Council  
City of Columbus, Texas

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Columbus, Texas (the "City") as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statement and have issued our report thereon dated March 31, 2020.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
